PROFILE

As a fresher, I am eager to start my career in the field of development. I have completed my education in computer science and have gained knowledge in programming languages such as C, C++, java, python. I am familiar with web development technologies such as HTML, CSS , JavaScript and I have experience working with databases such as MySQL . I am a quick learner who is passionate about technology and is always looking to expand my knowledge and skills. I am a team player who enjoys collaborating with others to solve problems and build innovative solutions. I am excited to contribute my skills and learn from experienced professionals in the industry.

EDUCATION

Bachelor of Computer Science

Savitribai Phule Pune University 2021-2024

12th

Chandrakala Kishorilal Goyal College 2020-2021

WORK EXPERIENCE

Research Analyst

Excelsior Research August-October 2022

As a Research Analyst at Excelsior Research , I played a pivotal role in driving data-driven decision-making and strategic planning. My work revolved around conducting in-depth research, analyzing findings, and providing actionable insights that directly contributed to the company's success.

Software Development Job Simulation on Forage

Standard Bank February 2024

- Completed a job simulation developing a new feature for Standard Bank's mobile application for the software development team.
- Developed a new budgeting feature for the mobile app using Swift and UIKit to let users set their budget and track their performance against it.
- Used Cuckoo to mock data responses in Swift and followed a test-driven development approach to verify that the API returned data in the correct format.

CERTIFICATIONS

- C (Programming Language)
- JAVA 17 masterclass
- JavaScript
